

## The Ghost in Walls, 2020

25 July 2020 – 2 August 2020

Opening Saturday 25 July 3–6PM **Open Sunday** (by Index Berlin) 26 July 12AM–6PM

ITALIC, Leipziger Straße 61 | 10117 Berlin Germany Europe | [www.italic.de](http://www.italic.de)

Everyone has a ghost story - aberrations, inconsistencies, and neglected experiences hiding in our collective memory; taking the forms of monuments, statuary, relics and rubble.

Using Berlin's fertile history as a point of investigation for what represent a broader international phenomenon, **The Ghost in Walls** summer school, initiated by *Shared Campus* in collaboration with the Zürich University of the Arts and the School of Creative Media/ City University of Hong Kong (6.7.–17.7.2020), presents the culminating works of international students in attendance.

**»When pop can no longer muster a nihilation of the World, a nihilation of the Possible,  
then it will only be the ghosts that are worthy of our time.«**

(Mark Fisher)

After two weeks of (online) intensive talks, studio visits and discussions with various Berlin based cultural agents, artists, musicians, curators, philosophers and critics, the students share their reflections and impressions on the past, present and considerations of the future - in light of their own particular experiences of place - by creating their unique postcard images.

The exhibition invites visitors to participate in this mail art exchange by sharing their thoughts and sentiments on the postcards, which will be correspondently sent to each participant.
